

# Attaching the Leigh e-Bush to the Router

## e-Bush and Guidebush Adaptors

The Leigh e-Bush fits directly to some popular routers such as Porter-Cable, Black & Decker, and Dewalt. Many other makes, e.g. Bosch, Fein, Festool, Milwaukee etc., offer or come with base adaptors that accept the e-Bush. Leigh offers eight adaptors, plus the Bosch RA1100 and RA1126, allowing the use of over one hundred other router models, new and old. The 711C (7/16" OD) may be used in place of the e7 for dovetails, however it does not allow fit adjustment for box joints. See the next page for a list of routers.

## e-Bush Mounting Variations

# Guide Bushing and Adaptor Selection

Leigh dovetail jigs require a router fitted with a guide bushing. An adaptor may be required to fit the bushing to the router. [Visit Leightools.com](http://www.leightools.com) for a complete list of routers.

## DIRECTIONS

- A.** Locate name of router maker in Column 1.
- B.** Locate router model in Column 2. If your router is not listed visit [leightools.com](http://leightools.com) for a complete, up-to-date list of routers.
- C.** Locate adaptor required for your router in Column 3.
  - Order Leigh adaptors (part no's in red) in Column 3 from Leigh.
  - Order Bosch adaptors RA1100 and RA1126 in Column 3 from Leigh or your Bosch dealer.
  - Order all other adaptors in Column 3 from the router manufacturer's dealer.

**Note:** Adaptor mounting screws are included with router.

■ MAFELL – Rework adaptor slightly.

- D.** Guide bushings in Column 4 fit all adaptors listed and may be ordered if required.
  - ◆ The e7 elliptical guide bushing (7/16" [11,1mm]) is supplied with all Leigh SuperJigs for routing dovetails and box joints. Order only if you require a replacement. The 711C/711TP\* guide bushing (7/16" [11,1mm]) can also be used, but only for routing dovetails.

All 8mm shank bits work with the e7-Bush supplied with your Leigh jig, or with any 7/16" OD [11,1mm] guide bushing that has a min. barrel length of 1/4" [6,35mm]. No other guide bushing sizes can be used.

\***Note:** The 711C has replaced the 711TP guide bushing.

1 ROUTER MAKER	2 ROUTER MODEL	3 ROUTER ADAPTOR	4 7/16" OD BUSHING	
AEG	OFE 710 in plunge base	Not Required	e7 or 711C
